Property Rent Department

ReLux Estates offers the most exclusive villas and apartments located in enclosed private residences with direct access to the beach and fully equipped with technical innovations. ReLux Estates provides a variety of services for the maintenance of rented property: staff to help around the house (cooks, baby-sitters, drivers); transportation; organization of leisure activities, excursions, shopping tours, organization of events and a 24 hour concierge service.

Short-term rent

Short-term rent relates to the leasing of a property from one day to several months. This type of lease is particularly popular during the summer season in Cyprus as renting a villa or an apartment is a great alternative to staying in a hotel. We help our clients to choose the best property based on their budget and their requirements. All properties available for short-term rentals are always fully furnished and equipped with all the necessary appliances and essentials.

Long-term rent

The variety of properties offered for long-term rentals consists of residential or commercial premises available for a year or more. There are many important factors to look at when choosing a long term rental property – the location, the number of bedrooms, the year of construction, the infrastructure of the surrounding area and the building facilities – all these are taken into consideration.

Contact details:

Valeria Dmitrienko

Other important factors include the rental price, the presence/absence of furniture and essential facilities provided within the property. When signing a longterm property agreement through us, we provide the tenant and the owner with a standard draft agreement that may be amended during the course of negotiations on the requirements of both parties.

Hosting Weddings and Events at Your Rented Property

Many special events should be celebrated amongst your closest family and friends and in complete privacy. One of the options we propose is to host the event in a rented private villa on the seafront or in the mountains with breath-taking views of the island's horizons. Our experts will help you to choose the best option to accommodate your wishes and requests. A green lawn and garden can be decorated according to your taste and preferences. It is also possible to arrange a cocktail or a seated banquet, to install large tents and organize exclusive catering. A stage can also be assembled if needed.

Property Sales Department

In addition, we collaborate with banks and other financial institutions that offer collateral property at attractive prices.

The value of property purchased at a discount as an investment is guaranteed to grow and the percentage of profits from the rental can increase up to 10% per annum! Our experts will conduct a thorough analysis of each property, make expert checks, evaluate the quality of the building and assess its investment profitability.

Property Sales Department

Buying Procedure

The procedure of acquiring property in Cyprus is relatively simple, especially in comparison to other countries. Non-residents of Cyprus that have citizenship abroad have the right to obtain full ownership of property. These may include apartments, houses or plots of land comprising of an area of up to 2 dunams (4,014 square meters). Nevertheless, the registration of real estate in Cyprus on a legal entity has no restrictions on the number and total area of objects acquired.

Legal Support

ReLux Estates Legal Department specializes in all matters related to residential and commercial property purchasing rights and as such we will provide services to both, individual customers and corporate clients. Thanks to numerous years of experience ReLux Estates ensures total security when signing contracts. It is also necessary to add that after Cyprus is admitted within the Schengen area, holders of a residence permit will be able to travel freely within the Schengen countries without a visa. Family members are also eligible for a permanent residence permit (spouse and children under 18 years).

Relux Estates offers a wide range of services for property owners who do not permanently reside in Cyprus but who wish to keep their properties in a good condition or who intend to earn extra income by leasing their properties out. Our property management department takes full care of the property and prepares it for a short-term or long-term lease.

The property management team sets a fixed fee or a percentage of the profit from the rent, which naturally depends on the amount of services provided. We sign a contract with every property owner in order to include every individual's requests. We offer many different investment options into the real estate of our clients such as reparations and purchases of new home furniture and equipment in order to make their property suitable for the rental market. An annual return from rent in Cyprus can reach up to 6% to 7% if effective management of the property is in place.

Property management services include:

- ▶ Marketing the property for rent via various mediums such as: media, exhibitions, Internet, etc.
- ▶ Preparation of the property for the rental market
- ▶ Provision of regular rental income reports
- ▶ Control of our management services through an innovative online system that allows our clients to manage/supervise/take care of their real estate from anywhere in the world
